

Patient-Focused Care:

Integrating **SIR-Spheres® Y-90 resin microspheres**
in your Office-Based Suite

SIRTeX

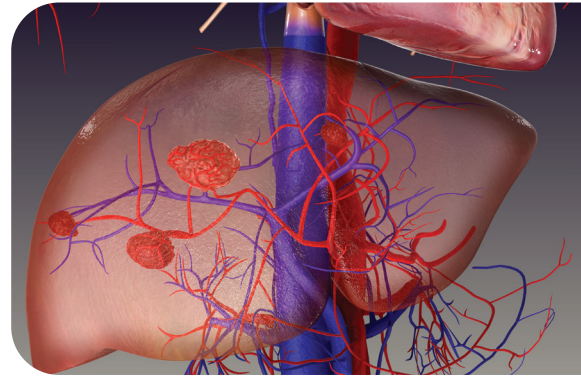

SIR-Spheres®
Y-90 resin microspheres

Advancing to the next level.

As an office-based angio suite, your service offerings support your commitment to providing PATIENTS the most effective care.

The Sirtex Office-Based Y-90 program provides support, convenience and tailored solutions specific to your practice setting, enabling office-based clinicians with the unique and exclusive knowledge necessary to launch Y-90. Sirtex program tools are designed to comprehensively support treatment in the office-based suite, in the most efficient and effective manner, while enhancing patient quality of care. With Sirtex's specialized support, office-based clinicians can focus on the day-to-day administration of their practice, while working to increase Y-90 availability for appropriate candidates.

Office-Based Y-90 Solutions from Sirtex

- **Product Support** – SIR-Spheres® Y-90 resin microspheres offer the flexibility to order, map then treat your patients with 3 delivery options, 5 days a week so that you can focus on expedited patient treatment, not the schedule.
- **Clinical Support** – The Medical Science Liaison team is readily available to engage in scientific discussions and provide best practices that may guide you in making clinical decisions.
- **Licensing Support** – Our seasoned Radiation Safety team can help your office navigate complex local and national regulations.
- **Reimbursement Support** – Sirtex's dedicated Healthcare Economics team will help inform your decision-making process prior to launching a Y-90 program in your office.
- **Launch Support** – Dedicated office-based team members can guide you in your discovery process to decide if a Y-90 program is right for your office, and prior to launch determine the best workflow for patients.
